RESISTANT PRODUCT(S)

Please state the reasons for choosing the Resistant Building Board(s) used:

How did you find installing the product?

How did you find finishing the product?

Any complimentary products/finishes used in association with the board?

For example; primers, renders, other surface finishes, sealants, tapes, fixings etc.

Continued overleaf...

Please state the benefits of using the Resistant building board mentioned above.

For example, if the board was easy to cut and work with, light weight, saved project time etc.

Have there been any issues encountered with the project? Did the product help overcome this?

For example, "the weather was excessively wet, multi-vent was used externally and due to its moisture resistance, was able to withstand the conditions."

FURTHER USE & RECOMMENDATIONS

Would you use the product again? Please state a reason for your answer.

Would you recommend this product to others? Please state a reason for your answer.
