Re: Render Board Approval – Resistant – BASE BOARD 10mm & 12mm

Dear Sirs,

Further to and in response to our discussions regarding the **BASE BOARD 10mm & 12mm**, this letter confirms that the VPI Products UK Ltd have undertaken the required testing on the above Render board and can confirm approval for use with our RheaTherm EWI and VPI Directly applied Render systems for **BASE BOARD 10mm & 12mm** installed in-line with your fixing guidelines and specifications provided for the installation. This is subject to a detailed specification being provided for the render system being installed.

VPI Products UK Ltd provide a 10 Year manufacturer's warranty on specified systems installed by VPI "Trusted Contractors" for peace of mind when using our systems. VPI Products UK Ltd provide detailed render system specifications for the installation of our render systems for all projects requiring **BASE BOARD 10mm & 12mm** and would be interested in working with you on future projects you may be involved with.

If you have any queries or questions relating to VPI Products UK Ltd please do not hesitate to contact me further.

Yours sincerely

N Cheek

Nick Cheek – Managing Director
VPI Products UK Ltd
